## ***“What does transition to college look like for a student with a disability?”***

Things I would invite **ALL** students to do **BEFORE** graduating:

Can I answer these 3 questions:

- 1) *What is my disability?*
- 2) *Do I know the accommodations I'm receiving?*
- 3) *“How does my disability impact me within the academic setting?”*

By answering these questions, my team will be able to engage in a conversation to determine reasonable & appropriate accommodations. Those accommodations are based on the **impact** within the academic environment which may include:

- Extended Time on Assessments (exam, quizzes, etc.)
- Reduced Distracted Testing/Quiet Room
- Sign Language Interpreters
- Assistive Technology
- Notetakers
- Many others - **Accommodations are assigned on a case-by-case basis**

Transition to College means a transition of ownership. Students drive the narrative. You are in control. However, you are not alone. We are here to help you.
